

Founder & Chairman

OvadYah Avrahami

'Commonwealth of Yisrae' Reconciliation Vision was the brainchild of Kellen Davison from Canada. It was launched towards the end of 2015 by Kellen and OvadYah as the two co-founders. Its first International Reconciliation Conference was convened in Jerusalem at Shavuot 2016. A historic milepost was established at this Conference by the symbolic handing of the Two Sticks of Ezekiel 37, by delegates from both the House of 10-Israel and the House of Judah. This was the first such public reconciliation motion in more than 2000 years since the Split of the Kingdom of Israel, when God removed the 10 Tribes from the World Empire of King Solomon, leaving him with only the House of Judah to rule over. Refer to 'Launch of the historic COI 2-Sticks Ceremony' video under Awakening Projects.

The success of this 2nd Conference necessitated the establishment of a formal administrative structure to cope with further expanding of the promotion of this Prophetic Vision. The lack of financial support by its associates, however, necessitated the abandonment of a properly structured organization. Being one of the originators of this Reconciliation Promotion, OvadYah Avrahami opted for the only viable solution: to carry on the existing structure, but with less accent on the COI Promotion activities and more on the Kol Hator Reconciliation Promotion which he has also been involved in since 2005. Together with Rabbi Avraham Feld of Jerusalem, they drive a kosher Promotion from the 'House of Judah', operating from within the heart of Israel to bring awareness to Rabbis and Jews of what the Jewish Sages have written about this Time and the Restoration (Geulah), as confirmed by the Prophecies of the Bible and the current Phenomenon of a Global Torah awakening amongst non-Jews.

Having stagnated the COI promotion temporarily, OvadYah decided to await Divine Providence to take over. This came along with a bang – when in January 2018, midst of the Jubilee turn over (which likely promises the Time for the Return of the Lost House of Israel 'Ephraim') Prof (Dr) William Liebenberg stepped forward with enlightened ideas and a great passion to expand the outreach of the COI Vision. He is Dean of an Online University which offers Diploma right through to Doctorate studies in Hebraic Restoration to New Testament students across the world. As the newly appointed CEO representing the House of Israel side of COI, he has launched within weeks, this renewed Website which is based on a totally new and expanded implementation structure (ref. Main Page).

OVADYAH AVRAHAMI (born 6 September 1934) is an independent Bible researcher. He works tirelessly as an activist promoting Israel and settlement of the Land of Israel, and as Webmaster and co-ordinator of Kol Ha Tor – Vision for the Restoration of the 12-Tribed Kingdom of Israel. This Vision entails the foundational and main Message of the Bible and of all Biblical Prophecy.

His publications on the topic of the world-wide Hebrew Roots Restoration phenomenon, have been circulated internationally since the early sixties and have affected the thinking and Scriptural interpretation of non-Jewish Bible scholars on all levels – from novice right through to academically qualified teachers worldwide.

OvadYah has been a pioneer since the 60's to enlighten Bible students about the Hebrew Roots of Christianity, long before it became the popular movement that it is today.

The Hebraic Roots Restoration Movement is a non-organizational and highly individualized Movement amongst serious and sincere Bible students of all religious denominations right across the globe. This awakening is also noticeable in the world's largest Christian denominations, where there is growing reference to the 'discovering of the Hebrew Roots of Christianity' and a renewed interest in and a return to the Torah principles as proclaimed and guarded by the spiritual leaders of Judaism over the last 3500 years. As a result of this Torah awakening millions of seriously seeking Bible students across the World are exiting the Church establishment

When Rabbi Avraham Feld and OvadYah met in Israel in 2005, it did not take them long to discover that they were sharing the same passion and unquenchable zeal for the Reconciliation of the 12-Tribed Kingdom of the G-d of Israel. Shortly after, they founded the [Kol HaTor Vision](#) as a publications medium to promote knowledge of this anciently proclaimed prophetic Vision which forms the main theme of the Bible, viz.:

- The Restoration of the 12-Tribed Kingdom of Israel, i.e.
- The Return of the exiled 12-Tribed Nation to the Land
- the Redemption or Geulah (in Hebrew), and the 'Gospel of the Kingdom' in Christianity.

It has since transpired that Avraham Feld's knowledge and contact fields in Judaism compliments OvadYah's wide experience and exposure to the Hebraic Restoration awakening across the world. Together they form a powerful representation of both the House of Judah and the re-awakening House of 10-Israel. Together they have authored a book which serves as the [foremost Text book](#) on the topic of the Restoration of the re-united Kingdom of Israel. They review the Prophecies of the Bible in this regard, the writings of Jewish Sages throughout the ages, the current world-wide phenomenon of the Hebraic Restoration Movement across the earth and how it is the [Torah foundations hidden in the New Testament](#) which drive millions of souls all over the world to the Jewish Faith in a Global Torah Revolution.
